ABOUT

- My core values: Originality, creativity
- What I want: To create something that lasts. Making my vision and my clients' visions come true.
- What drives me forward? The desire to overcome obstacles. I'm tempted to go against the tide and stretch the limits.

What am I most afraid of? Mediocrity and unoriginality, disrespect for a job well done.

MY STORY

MY MISSION

I want to give people and brands a tool to communicate their vision to the world. Give them courage and confidence and a great feeling about the projects and themselves. I want to create a world where people are not afraid to be different. A world in which people understand that truly original art has value – it gives a person a sense of uniqueness, self-worth and differentiates a brand from others on the market. A world that understands the value of originality and creativity, where people are not afraid to venture into untrodden paths.

WHAT I DO

I want to understand each client and help them communicate their vision. I can improvise, adapt to conditions or use them to achieve extraordinary results. I understand the power of a well-executed original video that can give a client a sense of uniqueness and self-worth, but also convey powerful ideas and dig into the subconscious.

MUSIC VIDEOS

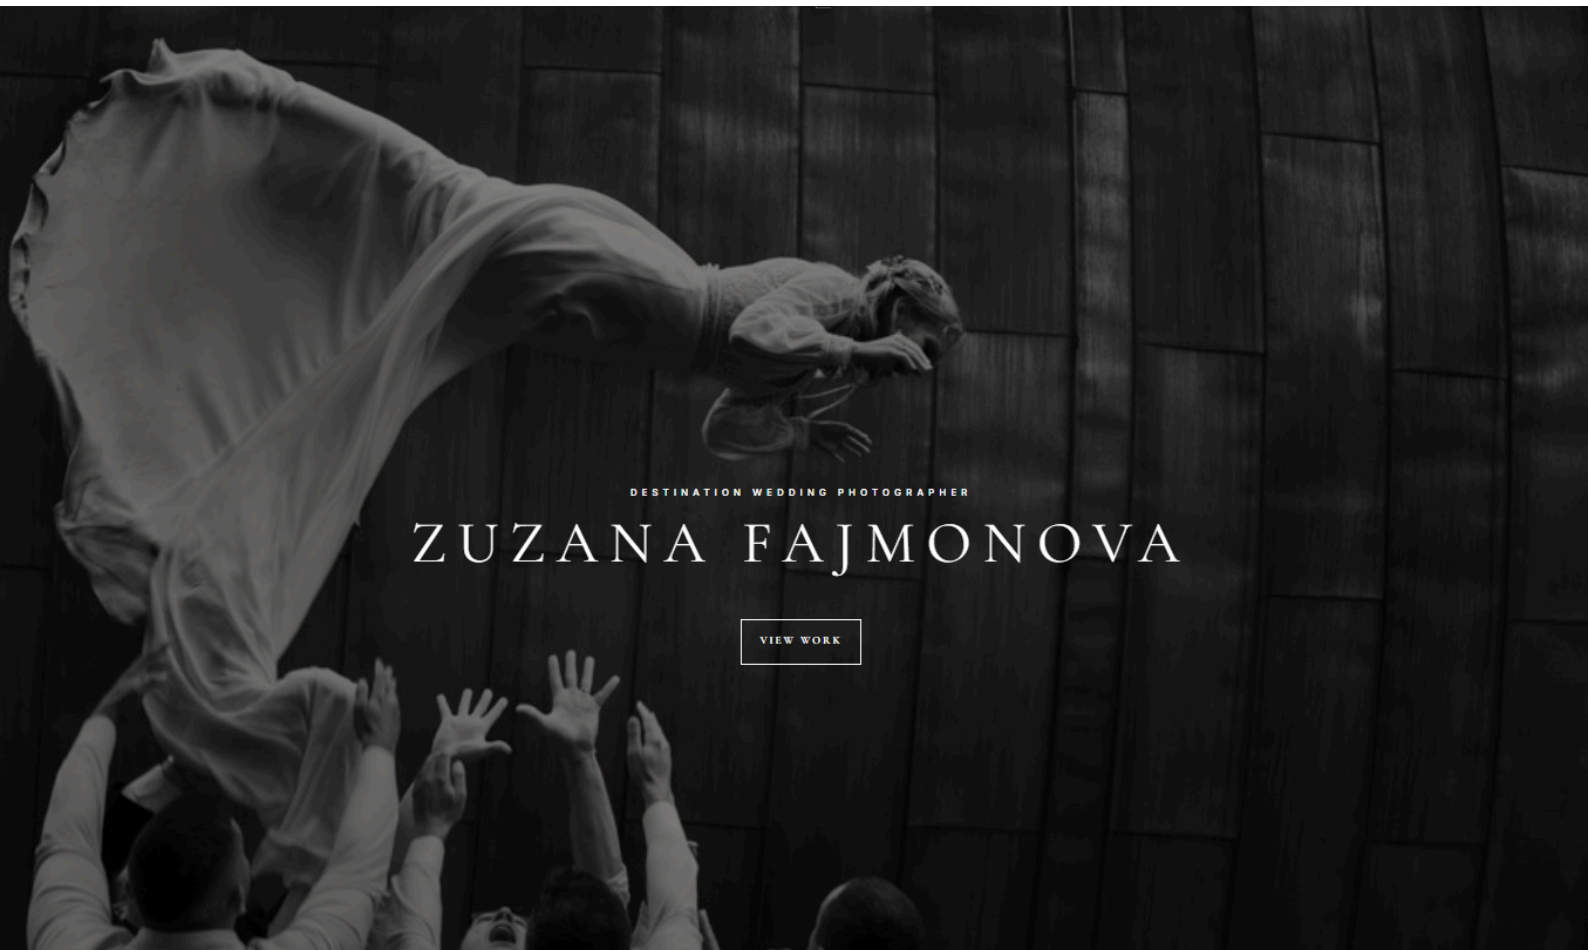

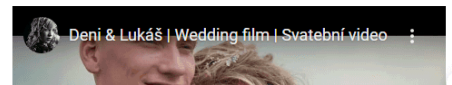

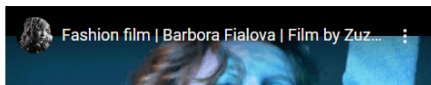

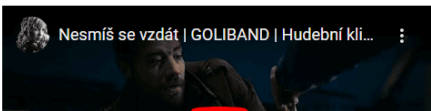

I have been making music videos and concert recordings for bands for over eight years for their presentation. As the wife of a musician, I am very close to music. I'll create a script, storyboard, find actors, location, and put together a whole team to make a video exactly to your liking.

FASHION AND ADVERTISING

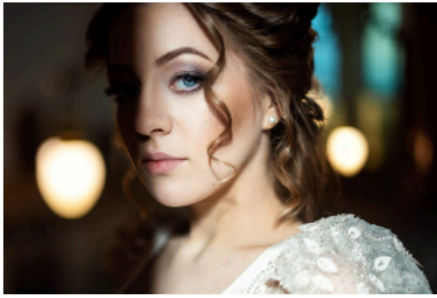

Fashion and advertising are my heart's desire. I love working with the model, in the studio and with daylight. I'm looking for interesting faces, I'll come up with a location, I'll create a moodboard that highlights the beauty and design of your brand. I work for beauty salons, fashion designers, make-up artists and other beauty professionals.

WEDDING FILM

I emphasize emotion and originality. I want your wedding video to be true to you, have a story, original visuals and most importantly, to move you every time, just like it did me when I created it. I create longer wedding videos, short reels and long wedding documentaries. I like to play with unconventional composition and editing.

ARTISTIC

You are unique, so you deserve uniqueness. Relish the precious moments of your life, captured in a unique and novel way. As a wedding photographer, I immerse myself in the artistry of creative shots, transforming the process into an enchanting experience for all. The results are always breathtaking, a testament to the beauty and depth of your love story.

EMOTIONS

I cherish traditions. I capture true emotions in a documentary style, photographing the most significant moments so subtly that you won't even notice my presence on your wedding day. My wedding portfolio presents clients with a blend of vibrant color and timeless black-and-white images, each telling its own poetic story.
